PROFESSIONAL SUMMARY

QC Engineer with 1.5+ years of full-time experience (since 04/2025) in Japanese IT outsourcing, testing B2C e-commerce web and mobile products in Agile teams. Owned authentication and payment testing (GMO 3-D Secure, Amazon Pay) on assigned flows; verifies data with Postman (API) and SQL. Built and published Pocket QA, a Chrome test-automation extension with record/replay and Selenium/Playwright export. Seeking a manual + automation QC role.

SKILLS

Testing & Tracking	Postman, Chrome DevTools, Redmine, Excel, Google Sheets
Testing Types	Manual Testing, API Testing, Database Testing, Mobile Testing, Regression, UI, UAT support
Test Design	Equivalence Partitioning, Boundary Value Analysis, Decision Tables
Automation (personal)	Playwright, Selenium
Code & Databases	JavaScript, C#, Python, MySQL, SQL Server, Git
Tools from training	Katalon, JMeter, BrowserStack
Languages	English – Intermediate (reading specifications)

PROFESSIONAL EXPERIENCE

QC Engineer
02/2025 – Present

Lampart Co., Ltd. — *Ho Chi Minh City*

Japanese IT outsourcing · Intern from 02/2025, full-time from 04/2025

- Owned testing of authentication and payment steps for new payment methods on assigned flows, including GMO credit card (3-D Secure) and Amazon Pay: refunds, cancellations, 8%/10% tax rounding, promotions.
- Tested two B2C e-commerce web and mobile products: 15 months in a team of 30 (9 QC engineers) and 4 months in a team of 15 (4 QC engineers); personally reported 103 defects, 98% valid.
- Ran functional and regression testing each sprint on web and Android/iOS (real devices, DevTools emulator); supported client UAT by investigating issues and verifying fixes on production.
- Conducted API testing with Postman; wrote SQL (JOINs across 4–5 tables, subqueries, GROUP BY/HAVING) on MySQL and SQL Server to verify CSV imports and reconcile order totals between API and database.
- Reviewed Business Analyst (BA) documents and raised 176 Q&A items to BA/BrSE and developers to clarify specs and investigate logic; maintained test cases and test plans in Excel & Google Sheets.
- Built QA checklist templates, helped document the payment flow and onboarded a new QC member.

PROJECTS

Pocket QA — Web Test Automation Extension
12/2025 – Present

Role: QA / Developer | Solo project *Published on the Chrome Web Store* · *Demo: kt-hg.github.io/Promo--Pocket-QA*

Self-built, published Chrome extension that records a tester's actions and replays them as regression tests, with a pass/fail result and a ready-to-paste bug report.

- 17 action types (iframes, assertions, conditions, branching); data-driven (CSV), sequenced, scheduled runs.
- Reports each run as Passed / Failed / Test broken, with a Markdown bug report (repro steps, screenshot), image diff and XLSX/HTML/ZIP export.
- Built-in test design (Equivalence Partitioning, Boundary Value Analysis, decision tables); generates test scripts for Selenium (Python, Java), Playwright and Robot Framework.

Technologies: JavaScript ES6+, Manifest V3, Chrome DevTools Protocol (CDP), SQL (query analysis, DB rollback)

Tool Shop (Training project)
12/2024

Role: QA | Solo project

Tested an online e-commerce platform: Functional, UI, Performance and API testing; automated selected regression cases.

Technologies: Katalon, Postman, JMeter, BrowserStack

EDUCATION

University of Science – VNU-HCM (HCMUS)
2021 – 2025

B.Sc. in Information Technology — *Graduated 10/2025*

Relevant coursework: Software Testing, Database Systems, OOP
